## Shimizu Terminal Hosts Extracurricular Learning Sessions for Local Elementary School Students

The Shimizu terminal (Shizuoka City, Shizuoka; terminal manager: Toshiyuki Okamoto) of TonenGeneral Sekiyu K.K. (head office: Minato-ku, Tokyo; representative: Jun Mutoh) hosted extracurricular learning sessions on the terminal grounds for 100 fifth-grade students from nearby Shimizu Sodeshi Elementary School on November 15.

During the first half of the sessions, employees serving as instructors used samples of gasoline, kerosene, diesel and other petroleum products to explain how these products are used not only as fuel, but also in the manufacture of commonly-used objects such as plastic bottles and CDs. After the explanations, the instructors used quizzes to test the students' new knowledge.

The instructors also explained the terminal's safety measures and disaster prevention efforts, including tank disaster prevention equipment and response measures for earthquakes and tsunamis.

In the latter half of the sessions, the students toured the terminal facilities and observed tanks, the extension of an arm on a fire truck, and other things outside the scope of their normal activities, enabling them to gain valuable experience in addition to learning about safety measures and disaster prevention.

The TonenGeneral Group will continue to contribute to society through a variety of activities.
